
In Sweden, the welfare state has been radicalised and mass unemployment is widespread. However, in contrast to the recent economic crisis, the Swedish welfare state has never been as strong as it is today. The Swedish welfare state is a comprehensive system of social protection that includes all aspects of life, from birth to death. It is based on the principles of universality, solidarity, and equality. The Swedish welfare state has been praised for its high levels of social security, health care, education, and housing. However, it has also been criticized for its high taxes and high levels of government spending.

In the aftermath of the global financial crisis, people who had never before had cause to worry about losing their jobs entered the ranks of the unemployed for the first time. In Sweden, the welfare state has been radically changed and mass unemployment is widespread. in two parts. The first part sets out conceptions of professionalism at work, how professions, work and learning can be understood, and examines the kinds of institutional practices organized for developing occupational capacities. The second part focuses on the role of practice-based learning through professional venues and workplace learning, and helps students to understand the kinds of activities associated with workplace-based learning, professional practice, and advanced learning in the workplace. The third part builds on the knowledge developed in the first two sections, and offers an opportunity to compile and explore the contributions of the study's participants, as well as to support workplace-based learning for all professionals.

The book is divided into three parts: Part I focuses on the role of practice-based learning through professional venues and workplace learning, and helps students to understand the kinds of activities associated with workplace-based learning, professional practice, and advanced learning in the workplace. Part II builds on the knowledge developed in the first two sections, and offers an opportunity to compile and explore the contributions of the study's participants, as well as to support workplace-based learning for all professionals.
